

Sponsor a teacher

Teachers needing sponsors

- **Mardiana, Grade 4**

"I love to see my students show growth in their understanding and attitudes. When I see them grow in character and learn to love God, it motivates me to continue doing my best to improve the quality of their learning."

- **Daniel, Grade 6**

"I am deeply grateful to have joined Rehoboth School because here I have gained many valuable experiences and lessons, such as time management, hard work, teamwork, a sense of family, and spiritual growth."

- **Justina, Elementary VP, Christian Education**

"I enjoy being able to guide children in learning God's Word through religious education. I also like conducting lessons outside the classroom so that children can better understand God's creation through their surroundings."

- **Ester, Elementary Computers**

"I try to keep lessons engaging every day to ensure that children can learn about and master technology in this increasingly advanced digital age. The students are very excited when learning about new technologies, even if I only demonstrate them through videos or PowerPoint presentations."

Sekolah Kristen Rehobot is a Christian school that strives for educational excellence and practical skills development. Approximately 300 students are enrolled from Preschool to Grade 9.

There are 24 teaching staff at the school. Due to recent government cost-saving measures, the teachers' salaries, which used to be partially paid by the government, must now be paid by the mission. The average monthly wage per teacher is \$160 CAN.

Parents who send their children to the school are very poor and cannot afford to pay for tuition. Some parents are so poor that their children arrive at school without breakfast or lunch; the school provides a meal for them.

All the teachers at Sekolah Kristen Rehobot have been trained at a Christian teachers' college and incorporate God's Word and a Christian worldview into the subjects they teach.

The students from the school generally score high on national tests and show good study habits.

If you are able, please consider sponsoring a teacher or making a monthly contribution towards a teacher's salary. Sponsorships can be made by completing the sponsorship form on our website:
